Division of Water Supply Protection,
Office of Watershed Management

July 2005

Acknowledgements

The Land Management Plan for the Watersheds of the Sudbury Reservoirs for 2005-2014 was prepared by staff from the Natural Resources Section, Wachusett/Sudbury Section, and Quabbin/Ware River Section, as well as Divisional staff of the Department of Conservation and Recreation (DCR), Division of Water Supply Protection (DWSP), Office of Watershed Management (OWM). Plan sections were drafted by many authors, including Greg Buzzell (Forester II, Wachusett Section), Brian Keevan (Forester I, Wachusett Section), Bruce Spencer (Forester III, Quabbin Section), Dan Clark (Natural Resources Specialist, Natural Resources Section), Thom Kyker-Snowman (Natural Resources Specialist, Natural Resources Section), Peter Church (Director, Natural Resources Section), Matt Hopkinson (Environmental Engineer III, Quabbin Section), Dave Small (Forest and Park Regional Supervisor I, Quabbin Section), Jim French (Regional Planner III, Natural Resources Section), and Joel Zimmerman (Regional Planner IV, OWM). Tom Mahlstedt (Archaeologist, DCR Planning and Engineering) wrote sections regarding cultural resources protection. Joel Zimmerman and Paul Penner (EDP Systems Analyst III, OWM) provided the GIS graphics and other illustrations. Photos were provided by Greg Buzzell, Dan Clark, Joe Kowalski (Natural Resources Specialist, Natural Resources Section), Thom Kyker-Snowman, Clif Read (Program Coordinator III, Quabbin Section), and Paul Somers (State Botanist, MA Natural Heritage and Endangered Species Program), as well as from historical photos scanned by Joel Zimmerman. Detailed review and comment were provided by the staff above, as well as by John Scannell (Regional Director, Wachusett Section, Pat Austin (Environmental Engineer V, Wachusett Section) and Paul Lyons (Environmental Analyst V, Quabbin Section). Andy Backman (DCR Resource Management Planner), Jack Lash (DCR Ecology Program Director), and Leslie Luchonok (Director, DCR Resource Management Planning Program) provided helpful comments on plan drafts.

This plan was distributed in draft form, for review and comment, to approximately 75 individuals, agencies, and organizations outside the Division, and has been posted on the Division of Water Supply Protection website. Recipients included the Executive Office of Environmental Affairs, the Massachusetts Water Resources Authority, the Water Supply Citizen's Advisory Committee, the Massachusetts Division of Fisheries and Wildlife, the Massachusetts Department of Conservation and Recreation, Division of State Parks and Recreation, the Massachusetts Department of Food and Agriculture, the Massachusetts Department of Environmental Protection, the University of Massachusetts Department of Natural Resources Conservation, the USDA Forest Service, the Conservation Commissions and public libraries in area towns, District Representatives and State Senators, and a wide variety of other interested individuals. Comments received have been reviewed and addressed in drafts and/or incorporated in the final version of this plan.

TABLE OF CONTENTS

Executive Summary.....	i
1 INTRODUCTION, MANDATES AND STATEMENT OF MISSION	1
1.1 2003 REORGANIZATION OF STATE AGENCIES AND EFFECTS ON THIS PLAN	1
1.2 AGENCY MISSION AND MANDATES	1
1.3 “GREEN CERTIFICATION” OF MA STATE FOREST LAND MANAGEMENT	2
1.4 PLAN OVERVIEW.....	3
2 DESCRIPTION OF SUDBURY RESERVOIR WATERSHED RESOURCES.....	5
2.1 WATERSHED DESCRIPTION	5
2.1.1 <i>North Basin</i>	5
2.1.2 <i>South Basin</i>	6
2.2 SUDBURY WATERSHED OWNERSHIP AND LAND USE	6
2.3 PHYSICAL CHARACTERISTICS OF SUDBURY WATERSHED LANDS	11
2.3.1 <i>Soils</i>	11
2.3.2 <i>Hydrology</i>	12
2.3.3 <i>Topography</i>	13
2.3.4 <i>Developed Areas</i>	14
2.3.5 <i>Other Open Lands</i>	14
2.4 SUDBURY FOREST AND WILDLIFE CONDITIONS	14
2.4.1 <i>Forest</i>	14
2.4.1.1 Forest Types and Ages.....	14
2.4.1.2 Forest Inventory.....	15
2.4.1.3 Regeneration Conditions.....	17
2.4.2 <i>Wildlife</i>	19
2.5 CULTURAL RESOURCES	19
2.5.1 <i>State of Knowledge</i>	19
2.5.2 <i>Prehistoric Overview</i>	20
2.5.3 <i>Historic Sites</i>	21
3 RESEARCH-BASED PRINCIPLES GUIDING WATERSHED MANAGEMENT.....	22
3.1 PRINCIPLES OF WATERSHED PROTECTION	22
3.2 PRINCIPLES OF WATERSHED FOREST MANAGEMENT: GENERAL	22
3.3 PRINCIPLES OF WATERSHED FOREST MANAGEMENT SYSTEMS: LITERATURE REVIEW	23
3.3.1 <i>Naturally-managed Forests</i>	23
3.3.1.1 Water Yield.....	23
3.3.1.2 Water Quality.....	24
3.3.2 <i>Even-Aged Silviculture</i>	26
3.3.2.1 Water Yields	26
3.3.2.2 Water Quality.....	28
3.3.3 <i>Uneven-Aged Silviculture</i>	32
3.3.3.1 Water Yields	32
3.3.3.2 Water Quality.....	33
3.3.4 <i>Air Pollution Effects on the Forested Watersheds of the Northeastern U.S.</i>	34
3.3.4.1 Acid Deposition	35
3.3.4.2 Interaction between Air Pollution and Forests.....	36
3.3.4.3 Nitrogen Saturation.....	39
3.4 PRINCIPLES OF DISTURBANCE IMPACTS	41
4 WATERSHED MANAGEMENT GOALS	43
4.1 WATER QUALITY GOALS	43
4.2 LAND PROTECTION GOALS	44

4.3	FOREST MANAGEMENT GOALS	45
4.4	WILDLIFE MANAGEMENT GOALS.....	47
4.5	BIODIVERSITY GOALS.....	47
4.6	CULTURAL RESOURCE PROTECTION GOALS	48
5	2005-2014 MANAGEMENT OBJECTIVES AND METHODS.....	50
5.1	LAND PROTECTION	50
5.1.1	<i>Land Acquisition.....</i>	50
5.1.2	<i>Restrictions on Land Disposition.....</i>	50
5.1.3	<i>Establishment of Forested Riparian Buffers on Private Land.....</i>	51
5.1.4	<i>Boundaries.....</i>	52
5.1.4.1	<i>Maintenance.....</i>	52
5.1.4.2	<i>Encroachments.....</i>	52
5.1.5	<i>Policing.....</i>	52
5.1.6	<i>Fire Protection</i>	53
5.1.7	<i>Forest Roads.....</i>	53
5.1.7.1	<i>General Description</i>	53
5.1.7.2	<i>Best Management Practices for Road Maintenance Activities</i>	54
5.1.7.3	<i>Internal Review of Proposed Roadwork or Gravel Operations.....</i>	55
5.1.7.4	<i>Considering Beaver Populations in Long-term Planning for Access</i>	55
5.1.7.5	<i>Management Guidelines for Beaver at Road Stream Crossings.....</i>	56
5.1.8	<i>Areas with Special Management Restrictions</i>	57
5.2	FOREST MANAGEMENT	59
5.2.1	<i>Description of Forest Management Approach for Ten Years (2005-2014).....</i>	59
5.2.1.1	<i>Objectives for Sudbury Forest Management.....</i>	59
5.2.1.2	<i>The Role of Natural Disturbance</i>	60
5.2.1.3	<i>Forest Insects and Diseases.....</i>	61
5.2.1.4	<i>Species/Site Suitability</i>	62
5.2.1.5	<i>Analysis of Sudbury Forest Regeneration.....</i>	62
5.2.1.6	<i>Silvicultural Practices</i>	62
5.2.1.7	<i>Summary of Planned Silvicultural Activities.....</i>	68
5.2.1.8	<i>Reducing Shoreline and Streamside Mowing Practices</i>	69
5.2.1.9	<i>Silviculture by Forest Type.....</i>	69
5.2.1.10	<i>Management of OWM Lands in the South Basin</i>	73
5.2.2	<i>Conservation Management Practices for Water Supply Forestry.....</i>	74
5.2.2.1	<i>Planning Variables</i>	74
5.2.2.2	<i>Filter Strips</i>	79
5.2.2.3	<i>Buffer Strip</i>	79
5.2.2.4	<i>Wetlands</i>	79
5.2.2.5	<i>Logging Practices</i>	80
5.2.2.6	<i>Pollution Control.....</i>	85
5.2.2.7	<i>Fire Prevention.....</i>	85
5.2.2.8	<i>Protection of Residual Vegetation</i>	85
5.2.2.9	<i>Cultural Resource Protection</i>	86
5.2.2.10	<i>Aesthetics.....</i>	86
5.2.3	<i>Control of Harvest Operations through Timber Sale Permit</i>	86
5.2.3.1	<i>Water Quality Specifications</i>	86
5.2.3.2	<i>Harvesting Specifications</i>	87
5.2.4	<i>Internal Review and Monitoring of Forest Management Operations</i>	87
5.3	MANAGEMENT OF BIODIVERSITY.....	89
5.3.1	<i>Biodiversity Mandate.....</i>	90
5.3.2	<i>Rare and Endangered Species</i>	92
5.3.2.1	<i>Flora</i>	92
5.3.2.2	<i>Fauna.....</i>	94
5.3.3	<i>Rare Natural Communities</i>	96
5.3.4	<i>Cedar Swamp.....</i>	96

<i>5.3.5 Control of Invasive Plants</i>	<i>97</i>
<i>5.3.5.1 Definitions</i>	<i>97</i>
<i>5.3.5.2 Problems Associated with Invasives</i>	<i>98</i>
<i>5.3.5.3 Control and Management Options</i>	<i>99</i>
<i>5.3.5.4 Control Efforts during This Management Period.....</i>	<i>100</i>
<i>5.3.6 Maintenance of Early Successional Habitat for Landscape Diversity</i>	<i>100</i>
<i>5.3.6.1 Importance of Early Successional Non-Forested Habitat</i>	<i>100</i>
<i>5.3.6.2 Importance of Early Successional Woody Habitat.....</i>	<i>101</i>
5.4 WILDLIFE MANAGEMENT	103
<i>5.4.1 Assessment of Impacts of Planned Management Activities on Wildlife.....</i>	<i>103</i>
<i>5.4.1.1 General Impacts.....</i>	<i>104</i>
<i>5.4.1.2 Specific Impacts.....</i>	<i>104</i>
<i>5.4.2 Conservation Management Practices for Wildlife Management.....</i>	<i>108</i>
<i>5.4.2.1 Habitat Features and Management Recommendations</i>	<i>108</i>
<i>5.4.2.2 Considerations During Marking.....</i>	<i>119</i>
<i>5.4.3 Population or Impact Control Plans</i>	<i>122</i>
<i>5.4.3.1 Beaver Management Policy</i>	<i>122</i>
<i>5.4.3.2 Guidelines for Determining Proper Mitigation for Problem Beaver</i>	<i>123</i>
<i>5.4.3.3 Burrowing Animals.....</i>	<i>124</i>
5.5 PROTECTION OF CULTURAL RESOURCES.....	125
<i>5.5.1 Review of Proposed Silvicultural Projects</i>	<i>125</i>
<i>5.5.1.1 Internal Review of Cultural Sites on Proposed Harvesting Lots.....</i>	<i>125</i>
<i>5.5.1.2 Site Location Criteria.....</i>	<i>125</i>
<i>5.5.1.3 Harvesting Restrictions and Limitations.....</i>	<i>126</i>
<i>5.5.2 Vegetation Management at Historic Sites</i>	<i>127</i>
<i>5.5.3 Long Range Cultural Resource Management Initiatives.....</i>	<i>128</i>
6 RESEARCH, INVENTORY, AND MONITORING NEEDS	129
<i>6.1 INTRODUCTION</i>	<i>129</i>
<i>6.2 FOREST RESEARCH NEEDS</i>	<i>129</i>
<i>6.3 WILDLIFE RESEARCH NEEDS</i>	<i>130</i>
<i>6.4 CULTURAL RESOURCES RESEARCH NEEDS</i>	<i>131</i>
7 PUBLIC INVOLVEMENT.....	132
<i>7.1 PUBLIC INPUT IN FORMULATING WATERSHED MANAGEMENT PLANS</i>	<i>132</i>
<i>7.2 REGULAR REVISIONS TO THE SUDBURY LAND MANAGEMENT PLAN</i>	<i>133</i>
